LAPTOP TRAY ATHENE

The design of the drawer can be used for the majority of all desks. Its advantageous depth of 316 mm means that it can also be easily used for depth 80 tables. Athene is perfect for both holding a laptop or USB-C dock together with pens, phone etc.

CHARACTERISTCA :

- Laptop drawer Athene is delivered with a lock as standard.
- To prevent laptops from overheating, the design of the drawer has two ventilation holes in the back edge. If more ventilation is desired, most of the back edge can be removed due to the perforations. The holes can also be used for cable extraction.
- Option to purchase an insert, bamboo front and soft close.

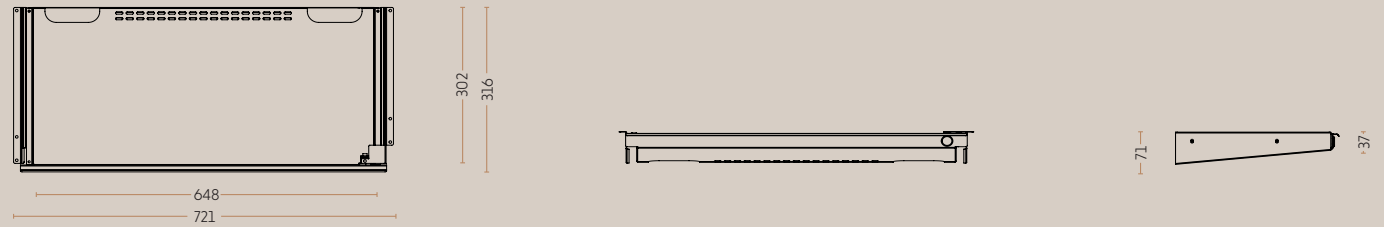

LAPTOP TRAY ATHENE
